

# Dear visitor,

Critical Communications World brings together professionals to see the latest innovations in the mission-critical market.

## Please visit the Airbus stands C100, B90 and A70 to:

- discover the possibilities of our Tactilon Agnet collaboration solution
- learn more about professional apps
- discover the latest on hybrid networks and solutions for mission-critical and business-critical use

## Plan your conference agenda

Finding it difficult to decide which seminars and conference presentations to attend? Plan your agenda based on our recommendations (see back cover).

## Find the latest updates online

Get the latest news on the conference and exhibition on our website – see product news and get more tips on getting the most from your visit.

[www.securelandcommunications.com/ccw](http://www.securelandcommunications.com/ccw)

Enjoy the tour!

## Airbus customers and partners at the Congress

### DAY 1 – 15 MAY 2018

#### Masterclasses

- 9:30** BDBOS Tactical Day: how to manage large scale events  
*Dr Barbara Held, BDBOS*
- 9:30** Keys to successful public private partnerships and the implementation of MNO based critical communications  
*Antti Kauppinen, Head of Department, Mobile Technology Development and Strategy, State Security Networks Group, Finland*

### DAY 2 – 16 MAY 2018

#### Stream A

- 16:00** The use of mobile hybrid TETRA and LTE  
*Andreas Wack, Lieutenant Colonel and Project Manager, German Armed Forces*

#### Stream B

- 13:45** Mega events: hope for the best, prepare for the worst  
*Mr. Zhou Xiaobin, Department Chief, Industry and Information Technology Commission of Guangzhou Municipality*

#### Stream C

- 12:00** Global panel: broadband for PPDR  
*Minna Nyman, Head of Rakel & Command and Control Systems Office, MSB*
- 16:00** TETRA in the SCADA systems and challenges in CLP Power  
*Terrance Lai, Senior Telecommunications Manager, CLP Power Hong Kong Limited*

### DAY 3 – 17 MAY 2018

#### Plenary session

- 9:00** Modernising the largest TETRA network  
*Thomas Scholle, Technology Director, BDBOS*

#### Stream A

- 12:00** Mission critical broadband via service operator  
*Timo Lehtimäki, CEO, State Security Networks Group, Finland*

- 13:30** Panel discussion: 5G network slicing  
*Jurgen Rurainsky, Head of the international Standardisation Team, BDBOS*

#### Stream C

- 12:30** Panel discussion: PPDR operators hybrid networks  
*Marc De Buyser, CEO, A.S.T.R.I.D.; Guy Duplaquet, Ministère de l'intérieur*

# Intelligence shared at CCW

Airbus stands C100, B90 and A70

Experience how our solutions gather, process and deploy intelligence

# AIRBUS

# Airbus at Critical Communications World 2018

Experience the future of collaboration for professionals at the Airbus stands, C100, B90 and A70 (Hall 22a).

Come and visit us on our stands and you'll get answers to these questions:

- 1 Intelligence Shared**  
What are the future possibilities of emergency response with 360-degree cameras and live video streaming?
- 2 Hybrid networks**  
What is the future of networks? How should the networks be evolving? What could be your next steps in network evolution?
- 3 Public safety**  
How can a data-driven ambulance make an impact on emergency medical care? What are the three problems that everyone has with in-hospital communications – and how to solve them?

- 4 Hybrid evolution**  
What's the best way to evolve from TETRA and Tetrapol to hybrid networks and LTE? What are the most efficient steps? How can innovation ease the evolution?

## Tactilon Dabat

- 5** Why is Tactilon Dabat essential for operations success? What are three tips about Tactilon Dabat that no-one can afford to miss? What are the possibilities that professional apps offer?

## Radio solutions

- 6** What are 3 secrets about radios? How can you get more from your radios? How can radios go hybrid?

Public safety area

Segment area

There's been a serious accident in the city! Experience the incident scene through virtual reality. See how first responders work together easily. Discover new ways to protect the city.

Apps ecosystem

- 7 Mobility and Integration**  
When going on a mission alone, to a remote location - what are the essentials for communications? How to build a seamless network for any circumstance? What are the elements of a hybrid solution for demanding situations?

- 8 Transportation**  
What should a transportation company do for its professional communications right now? How can a transport company achieve more flexible, more collaborative communications?

- 9 Energy and Utilities**  
How can energy companies use new communications to work more efficiently? What's the point of energy and utility apps?

- 10 Infra management**  
What should an operator think about controlling service quality? How to solve the new challenges in the hybrid environment?

- 11-14 Apps ecosystem**  
What are the possibilities that professional apps offer? What are the brilliant ways to use indoor positioning, alerting, video streaming and other solutions?
